

I-80 at 2300 East

Project Description: **Safety spot improvement**

This project is designed to increase safety on the I-80 2300 East westbound on-ramp by lengthening the ramp by approximately 400 feet. A retaining wall will be constructed on the north side to retain the new roadway.

Total Project Budget: **Approx. \$975-thousand (Commission approved amount)**

Anticipated Schedule: **This project is currently scheduled to for construction during the 2006 construction season.**

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
